Job Description

Field Sales Engineer Italy - Automotive / Mil/Aero and Industrial

Redtree Solutions Ltd, the largest pan-European Manufacturers representative in the semiconductors industry is looking for a **Field Sales Engineer to manage its Automotive, Mil/Aero and Industrial business in Italy**. Redtree records 43 team members across EMEA, including Russia & CIS and an average +11% business growth per year since 2006.

You are an Electronic Engineering graduate and have background of at least 5 to 8 years' experience in selling semiconductors and electronic components with good track records.

You are dynamic and efficient with a strong team-work attitude.

You understand how to make your business progress fast and record an extended relationship with Tier 1 and strategic Tier 2 customers in the Italian Electronic Industry.

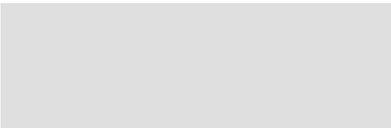

You have a good experience in all or part of mentioned focused segments.

You must be fluent in English to interact with our international suppliers and your colleagues.

You will work from home office and will report to the Regional Sales Manager of South Europe. Your mission will be to develop the business of Redtree Solutions and its franchised partners at your defined customer and market segments. You will Manage/develop strategic accounts and drive/work with distribution networks to perform with your territory growth.

We offer an interesting and fair package to motivated entrepreneurial person.

If you are interested, please call Riccardo Manfredini at 3806576881. rmanfredini@redtree-solutions.com
